- Industry-leading low claims-ratio

### Required Shipping Documentation

To ensure your shipment clears customs in a timely manner, it is essential that all necessary documents are properly completed. A copy of the shipping documentation must be provided to the driver at the time of pickup. Inaccurate or incomplete information may result in delays. To determine the NMFC for your shipments, please refer to the National Motor Freight Classification (NMFC) guidelines and definitions to determine a shipment's actual class. If you have a customized U.S. density tariff published by Day & Ross, or if you need assistance with simplified and easy-to-use density-driven NMFC-based pricing, please call Spot Quotes or speak with a Day & Ross Sales Professional.
